<u>How to Enable Word Wrap in Notepad Demonstration</u>

If you have received a Text File from the patient or patients caretaker, and it isn't Word Wrapped in Notepad, simply click on the 'Format' tab and click on the Word Wrap option.

The Text File should now be Word Wrapped similar to the image below.

```
Document.txt - Notepad                                            —  □  ×
